

# Thousands of colors from IFS

## Ensuring you have the right color for you or your customer is important.

At IFS we have well over 55,000 colors. That means you have access to every color in the rainbow and then some. What's more, they are available in a full range of chemistries including Polyesters, Super Durables, Urethanes, Fluoropolymers and Hybrids as well as fast cure formulations.

## There's a vast range of colors available to you, including:

RALs	Blacks, whites, neutrals
Pantones*	Pastels and brights
ANSI	Metallics
Federal Standards	Anodics

## IFS Special Effects

Sometimes a solid color isn't enough. A special effect can take your powder coated piece to the next level, whether it's adding a little sparkle with a beautiful metallic or a tactile element with a touch of texture. Choose from our great selection of special effects. Special effects from IFS include:

Metallics	Hammertones
Anodics	Textures
Wrinkles	Rivers
Veins	Transluents

## Speak to our color creation experts for a unique solution to suit you.

We have a selection of color cards available free of charge to help you choose the right shade. Make sure you have your copies readily available. Once you've narrowed down your choice we're happy to send you color chips to make sure you're 100% happy with your selection.

Don't see what you're looking for? Just ask! With so many colors and effects, we can't put everything on the color charts. Our color creation experts have many more colors and effects that we can send to you for consideration.

What's more, displaying your color capability is easy with the IFS wall boards that showcase the hundreds of colors available to your customers and brighten up your space. Ask for details.

## Talk to your IFS representative for further information on IFS color capability

\*Not all Pantone shades are available. Please talk to your IFS rep for details.

# IFS Match

## Color matching designed to deliver exactly what you need.

IFS Match allows you the freedom to create the exact color you need in the right product type. Know what you need? Simply send us a sample. We will quickly analyze the shade using the latest color matching technology and create a match and sample panel for you to approve.

## The IFS color experts can create colors to:

- Match a brand
- Match a liquid paint
- Match common house paint brands such as Benjamin Moore
- Match to fabric
- Match to metals or other objects
- Or simply create a custom color that is utterly unique to you

Creating the exact shade you need is easy. We're here to make sure you get the color you want.

Don't forget that color matching or custom color creation can also benefit from having any of the IFS special effects added to the powder to ensure you capture the exact look the piece needs. Whether you want a different gloss - achieving a flat matte or a super shine - or add a sparkle, texture of something more to your powder, it's simple with IFS.

The IFS color experts are available to advise you on the best powder chemistry for your application and any limitations there may be in terms of color or gloss capability.

Need quick custom colors in small quantities? The IFS sister brand, Polychem, is the perfect partner for coating professionals who need quick turnaround times and flexible quantities in a standard polyester chemistry. At Polychem we will "match it - make it - mail it" in only 5 - 7 days, and any color or effect is available in quantities as low as 5lbs.

Talk to your IFS representative for more information on Polychem or call
